Howdy!

We are very pleased to announce the Texas A&M International Beef Cattle Academy (IBCA) and invite you to enroll in this prestigious certificate program. With a limited class size and online coursework taught by internationally renowned Texas A&M faculty and guest lecturers, the IBCA offers an exclusive and customized learning experience tailored to the educational and professional needs of each participant. As a participant, you will have access to emerging technologies in beef cattle reproduction, nutrition, genetics, health, and welfare related to all phases of beef production, including cutting-edge practices for the quality and safety of beef products.

At the completion of the IBCA, you will put your knowledge into practice through hands-on learning experiences at various locations in Texas and on the Texas A&M University College Station campus. Your program will conclude with a graduation ceremony held during the history-making Texas A&M Beef Cattle Short Course, attended by over 1,700 participants annually.

Advance your knowledge and become part of the Aggie community in global beef production by becoming a graduate of the International Beef Cattle Academy!

**Program Coordinators**

**G. Cliff Lamb**
Professor and Head
Department of Animal Science
Texas A&M University

**Reinaldo F. Cooke**
