

Animal Science

Change of Major Requirements

The following requirements must be met in order to be accepted into the
Department of Animal Science:

1. Attend one of the **MANDATORY** informational meetings announced during the semester.
2. Complete the required paperwork:
 - a. [Change of Curriculum Request](#)
 - b. Essay stating why you want an Animal Science Degree and how an Animal Science Degree will help you meet your career goals
 - c. Unofficial Transcript (printed from Howdy)
3. Have completed an in-person (i.e. not web-based) section of ANSC 107 and ANSC 108 with a “B” or better in both and:
 - a. *For Production/Industry Option:*
 - Have at least a **2.75 overall GPA** at Texas A&M.
 - Have completed CHEM 101 & CHEM 111 or BIOL 111 (both are preferred).
 - MATH 141, MATH 142 are highly preferred.
 - b. *For Science Option:*
 - Have at least a **3.3 overall GPA** at Texas A&M.
 - Have completed CHEM 101 & CHEM 111. (Grade of “B” or better is preferred.)
 - CHEM 102 & CHEM 112, MATH 141, MATH 142, and BIOL 111 are highly preferred.

Important Notes

- Typically, students with more than 75 semester credit hours will not be allowed to change majors into the Department of Animal Science.
- Students who are seriously interested in ANSC and may not meet all requirements are encouraged to attend the mandatory meeting and inquire accordingly.
 - You are applying to a specific option. You may **not** change options after you are admitted.
